Blu-ray™ February 25th

1 Bag White Vanilla Meltables
1 Bag Turquoise Vanilla Meltables
1/2 cup dried blueberries
Light Blue Luster Dust
Silicone Snowflake Mold

Melt the vanilla meltables per package instructions. Fill the snowflake molds about half way. Put a pinch of blueberries into each snowflake bite. Top with more vanilla meltables until the top of the mold is reached. Tap gently to remove any air bubbles. Refrigerate for 30-60 minutes. Remove the bites from the mold and brush the white ones with a light coat of luster dust. Serve.
